task7首页功能实现
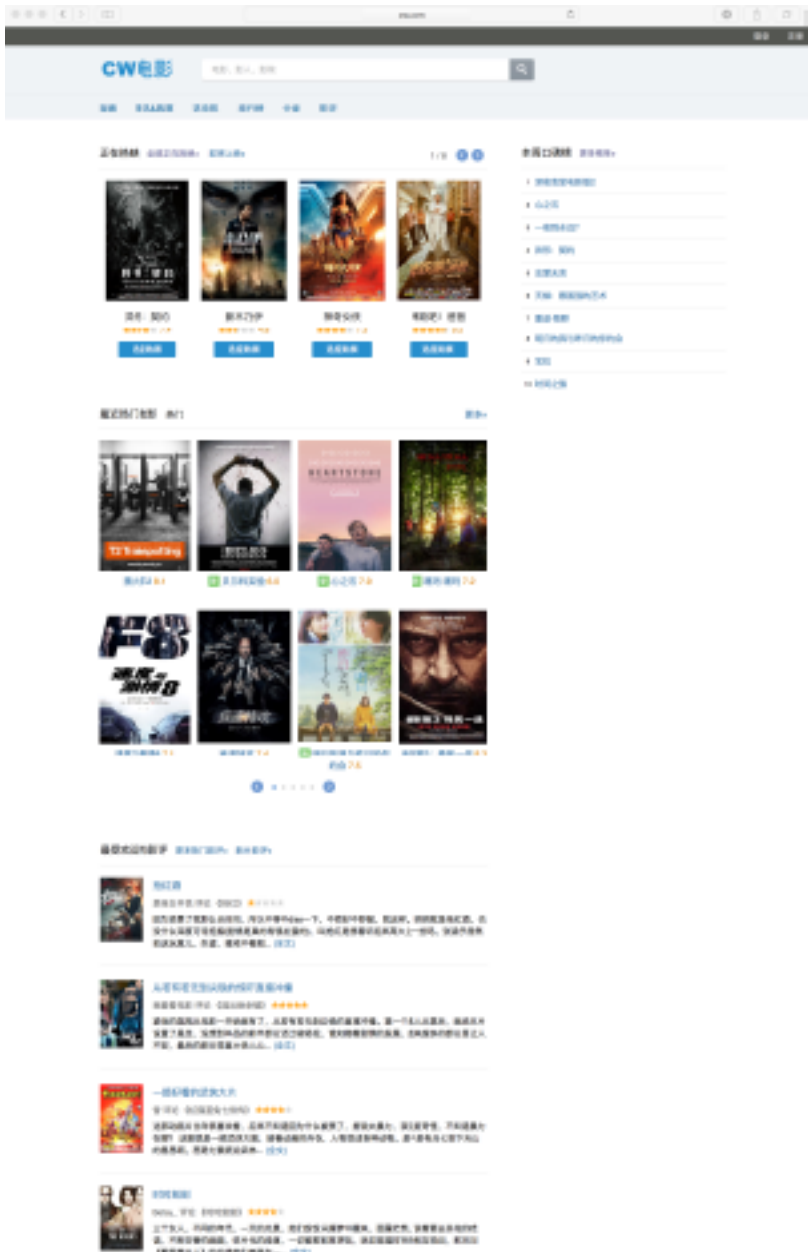

CW影评的首页设置了注册／登录、购票等的链接，主要功能有电影搜索、热门电影推荐、热门影评推荐。

具体实现如下：

1. 注册／登录链接

2. 购票链接

```html
▼ <li>
    <a href="https://movie.cw.com/cinema/nowplaying/">影讯&购票</a>
  </li>
▼ <li>
    <a href="https://movie.douban.com/explore">选电影</a>
  </li>
```

3. 搜索功能

```html
▼ <form action="https://movie.cw.com/subject_search" method="get">
  ▼ <fieldset>
      <legend>搜索: </legend>
      <label for="inp-query"> </label>
    ▼ <div class="inp">
        <input id="inp-query" name="search_text" size="22" maxlength="60" placeholder="输入电影名称" value autocomplete="off" class="placeholder">
      </div>
    ▼ <div class="inp-btn">
        <input type="submit" value="搜索">
      </div>
      <input type="hidden" name="cat" value="1002">
    </fieldset>
  </form>
```

```html
▼ <script id="suggResult" type="text/x-jquery-tmpl">
    <li data-link="{{= url}}">
      <a href="{{= url}}" onclick="moreurl(this, {from:'movie_search_sugg'})">
      <img src="{{= img}}" width="40" />
      <p>
        <em>{{= title}}</em>
        {{if year}}
          <span>{{= year}}</span>
        {{/if}}
        {{if sub_title}}
          <br /><span>{{= sub_title}}</span>
        {{/if}}
        {{if address}}
          <br /><span>{{= address}}</span>
        {{/if}}
        {{if episode}}
          {{if episode=="unknown"}}
            <br /><span>集数未知</span>
          {{else}}
            <br /><span>共{{= episode}}集</span>
          {{/if}}
        {{/if}}
      </p>
    </a>
    </li>
  </script>
  <script src="//img3.cvio.com/dae/accounts/resources/1f8cb8a/movie/bundle.js" defer="defer"></script>
```

4. 热门电影推荐

```html
▼ <div class="grid-16-8 clearfix">
    <div id="dale_movie_homepage_top_large" ad-status="loaded"></div>
  ▼ <div class="article">
      <div id="dale_movie_home_main_top" ad-status="loaded"></div>
    ▼ <script id="db-tmpl-subject-tip" type="text/x-jquery-tmpl">
        <div id="subject-tip">
          <div class="subject-tip-hd">
            <h3>{{= title}}<span class="release-year">{{= release}}</span></h3>
            <p class="star">
              <span class="allstar{{= star}}"></span>
              <span class="subject-rating">{{= rate.toFixed(1)}}</span>
              {{if enough}}
                <span class="rater-num">{{= rater}}人评分</span>
              {{/if}}
            </p>
          </div>
          <div class="subject-tip-bd">
            <ul>
              <li><span>{{= duration}}</span><span>{{= type}}</span><span>{{= region}}</span></li>
              <li class="director"><span class="label">导演</span><span>{{= director}}</span></li>
              <li class="actors"><span class="label">主演</span><span>{{= actors}}</span></li>
            </ul>
            {{if intro}}
              <div class="subject-intro">
                {{= intro}}
              </div>
            {{/if}}
          </div>
        </div>
      </script>
    ▼ <div id="screening" class="s" data-dstat-areaid="78" data-dstat-mode="click,expose">
      ▼ <div class="screening-hd">
        ▼ <div class="ui-slide-control">
            ▶ <span class="prev-btn">×</span>
          ▼ <span class="next-btn">
              <a class="btn-next" href="javascript:void(0)"></a>
            </span>
          </div>
        </div>
```

```html
▼ <div class="slide-tip">
    <span class="ui-slide-index">8</span>
    " / "
    <span class="ui-slide-max">9</span>
  </div>
▼ <h2>
    "正在热映"
  ▼ <span>
      <a onclick="moreurl(this, {from:'mv_l_a'})" href="/cinema/nowplaying/">全部正在热映</a>
    </span>
  ▼ <span>
